

[NDL-3000](#) elaborates on structural variety of pure natural compounds and includes synthetic compounds and synthetically modified pure natural compounds: alkaloids, natural phenols, nucleoside analogs, carbohydrates, purines, pyrimidines, flavonoids, steroidal compounds, and natural amino acids. The list is incomplete.

NDL-3000 would be “natural” extension of well-known NPL-480, [Library of Pure Natural compounds](#), in design and structural diversity.

NDL-3000 Compounds comply with screening purity standards. NDL-3000 is available as a collection of 3000 compounds, individually, and/or in smaller subsets. Custom formatting in vials, 96/384 plates, is always welcomed.

Structural data and pricing information is available on request. [Contact us now](#) !

Receive a copy of NDL-3000 or any of TimTec compounds collections on a CDROM - please e-mail us your exact postal address.
