

Featured Natural Products/Compounds

[Monastrol](#) (ST075209) Cell permeable non-tubulin-interacting mitosis inhibitor. Blocks mitosis (IC₅₀=1

[Genipin](#) (ST080860) Genipin is an aglycone derived from an iridoid glycoside called geniposide present

[Anabasin Hydrochloride](#) (ST069297)

Insecticide Biomarker Inhibitors of breast cancer aromatase VET: anabasin hydrochloride has no terato

[Cytisine](#) (ST008373)

Potent ligand for many nAChR subtypes. Known for analgesic, antihypertensive and inotropic activities.

[Gossypol](#) (ST065835)

Exhibits multiple biological effects including antifertility and anticancer activity.

[Gramine](#) (ST023280)

Vasorelaxing agent acting mainly by antagonism at 5-HT (2A) receptors Toxic to cells, may play defens

[Harman](#) (ST013856)

Possesses antiplasmodial activity associated with a low cytotoxicity Monoamine oxidase (MAO) inhibito

[Lagochiline](#) (ST059290)

Sedative, hemostatic, hypotensive effects

[Levogluconenone](#) (ST005503)

Initiates tumor and shows clastogenic activity in mice

[Lupinine](#) (ST018409)

Antialcoholic affect: reduces aethanol anesthesia

[Salsolidine](#) (ST023755)

Competitive inhibitor of catechol-O-methyltransferase Stereoselective competitive inhibitor of the enzyme

[Solasodine](#) (ST023803)

Antiinflammatory activity Steroidal alkaloid solasodine is linked to impaired female sexual behavior of rats
